

TMV SHELTER

-32°C

Wind-load :
187 km/h

+49°C

Snow-load :
105 kg/m²

COMMERCIAL DESCRIPTION

Our TMV shelters are particularly suitable for medium or long term camps, accommodation, offices, workshops, ...

TECHNICAL DESCRIPTION

- ▶ The TMV are sophisticated structures made with aluminium frames and PVC canvas. Climatic area A1 to C1 complying the AECTP-200 standard (edition 3). Thanks to its excellent thermal insulation, the energy consumption is reduced to a minimum. U=1 W/m²/°C de la tente.

▶ **Frame :**

Frame is anodized aluminium.
Interfaces, fixtures and baseplates formed of galvanized steel.
Axles are electrogalvanized.

▶ **Canvas :**

Shelters can be specified with up to 3 layers dependent upon climatic requirements.
Main canvas : polyester material coated with PVC on both sides
Thermal fly : PVC-coated on both sides
Inner liner : high grade composite liner

▶ **Standard configuration :**

- Colors : white, NATO green or sand
- One soft door per gable
- One windows per bay section

- Inner liner
- Reversible thermal fly
- Removable velcro groundsheet
- AC (with diffusion duct)
- Soft door for vehicle
- Rigid door for vehicle
- Soft door
- Insulated rigid door with or without "push bar"
- High wind staking kit
- Steel storage rack
- Additional windows
- Rigid floor
- Repair kit
- Lighting kit
- Photovoltaic electricity

TYPE A - TYPE B

TYPE A

TYPE B

► **TYPE A:**

- Length : 38.5 m
- Width : 10 m
- Ridge height: 4.15 m
- Eaves height : 2.5 m

VARIANTS (A2, A3, A4):

- Ridge height : 5.15 m
- Eaves height : 3.5 m

► **TYPE B:**

- Length : 28 m
- Length (B5) : 31.5 m
- Width : 10 m
- Ridge height : 4.15 m
- Eaves height : 2.5 m

VARIANTS (B1, B5) :

- Ridge height : 5.15 m
- Eaves height : 3.5 m

TYPE C - TYPE D

TYPE C

TYPE D

► **TYPE C:**

- Length : 10.5 m
- Length (CKA1) : 7 m
- Width : 10 m
- Ridge height : 4.15 m
- Eaves height : 2.5 m

VARIANTS (CKA1, CKDARS, C2DARS) :

- Ridge height : 5.15 m
- Eaves height : 3.5 m

► **TYPE D:**

- Length : 10 m
- Width : 6 m
- Ridge height : 4.15 m
- Eaves height : 2.5 m
